

"BRAYCES" For All Ages

TO: _____

NOBODY'S GOT YOUR SMILE! Your smile can work magic. It can light up the room or brighten your outlook. It breaks the ice and warms a friendship. A beautiful smile can help you look at life in a whole new way.

BESIDES HELPING YOU LOOK YOUR BEST, a beautiful smile can go a long way towards helping you stay healthy. In short, orthodontics is strong preventative medicine. With straight teeth, and a proper bite, you can help prevent tooth decay and gum disease, which can cause needless loss of teeth.

TODAY'S "BRAYCES" ARE LESS NOTICEABLE THAN EVER and won't interfere with the active lifestyles that teenagers enjoy. Treatment may last one to three years (2 years is average) and include a combination of appliances. Good patients certainly have faster results.

AT YOUR FIRST VISIT, an evaluation will take place to enable us to answer your questions about "BRAYCES". Dr. Bray and Dr. Pfund are Board Certified Orthodontists and experts in all advanced orthodontic techniques. Please feel free to bring any concerns to their attention. *Your smile is our #1 goal.*

YOUR SMILE DESERVES SPECIAL TREATMENT. Dr. Bray and Dr. Pfund understand that everyone's needs and expectations about orthodontics are different. That's why we take great care to give you the individualized attention you deserve.
